

Dear friends,

we would like to send you the invitation for Prague Hamburg Rowing Race. It is a unique race on the river Vltava and Elbe with a length of 850 km in 12 stages. The same route was made for the first time by rowers in 1876, therefore we are convinced that despite its extreme physical and mental difficulty, this competition will become a challenge and will remain a fixed part of the rowing calendar in the future. Likewise, we think the project will be an attractive platform for rowing competitions and will join the same projects as the Rally Paris Dakar and will bring a great positive presentation to our sport.

We will be honored if some of your union's rowing staff will use this invitation in any category. That is why we want to ask you to distribute this invitation to all clubs and university teams within your union. We thank you in advance for this cooperation.

Greetings

Aleš Nejedlo
Director of the Race

Dušan Macháček
President of the Czech Rowing Association

Siegfried Kaidel
President of the German Rowing Federation
